

## Investment objective

The Lincoln Green funds aim to achieve capital appreciation over the medium to long term by investing in UK and international equities with socially responsible policies that contribute to improving the quality of the environment.

## Risk category

The funds are categorised as aggressive, seeking to achieve capital growth. They invest mainly in equities in the UK and overseas. These funds are more appropriate for those who can remain invested in them for the long term (ten or more years) and whose financial situation and temperament can tolerate swings in performance.

## Performance vs peer group

## Geographical allocation

Source (performance figures): Financial Express as at the end Nov 2009, bid - bid, net income reinvested. You may not get back your original investment. Unit values and the income from them can fall as well as rise and are not guaranteed. Where applicable exchange rates may also cause the value of underlying investments to go down or up. Tax benefits of investments depend on your individual circumstances and may be changed without advance warning.

Source: (top ten fund sizes and allocation where applicable): Jupiter Asset Management. These splits shown apply to the pension funds. There might be a slight difference between the allocations in the life fund but this typically would not be more than 1%.

The AMCs quoted include an allowance for the investment management expenses associated with the fund, including the costs of any external fund managers. Because of the different costs associated with managing different types of assets and because different fund managers manage different funds, the allowance for investment management expenses varies depending on the fund.

### About the fund manager

Established in 1985 as a specialist boutique, Jupiter has since grown to be one of the UK's most successful and respected investment management groups. With over £15.7bn under management as at 31 January 2009 across a broad variety of portfolios, Jupiter has gained a reputation for achieving outperformance. Jupiter boasts some of the most respected fund managers in the UK – a number of these have been at Jupiter for many years, providing continuity and strength to long-term performance.

### About the fund manager's investment process

In managing the Lincoln Green fund, Jupiter's philosophy centres on investing in companies which are either developing products or services which offer profitable solutions to environmental and social problems or act in a way that reduces the adverse external impacts of their operations or both.

### About Lincoln
